Welcome to the Performance Measurement Web Site

The Performance Measurement Directorate measures, analyzes and reports out on the U.S. Coast Guard Auxiliary's performance and resource data. Our products are designed to help leadership and staff, at all echelons, make informed decisions, both tactical and strategic.

LET'S START WITH LUCI

LUCI (Local Unit Chartered Information) is an Excel-based application that monitors seven key performance measures.

VESSEL EXAMS

PUBLIC EDUCATION HOURS

MARINE DEALER VISITS

SURFACE PATROL HOURS

WHAT'S WITH THE TWO COLORS?

This chart is from September 2021 data.

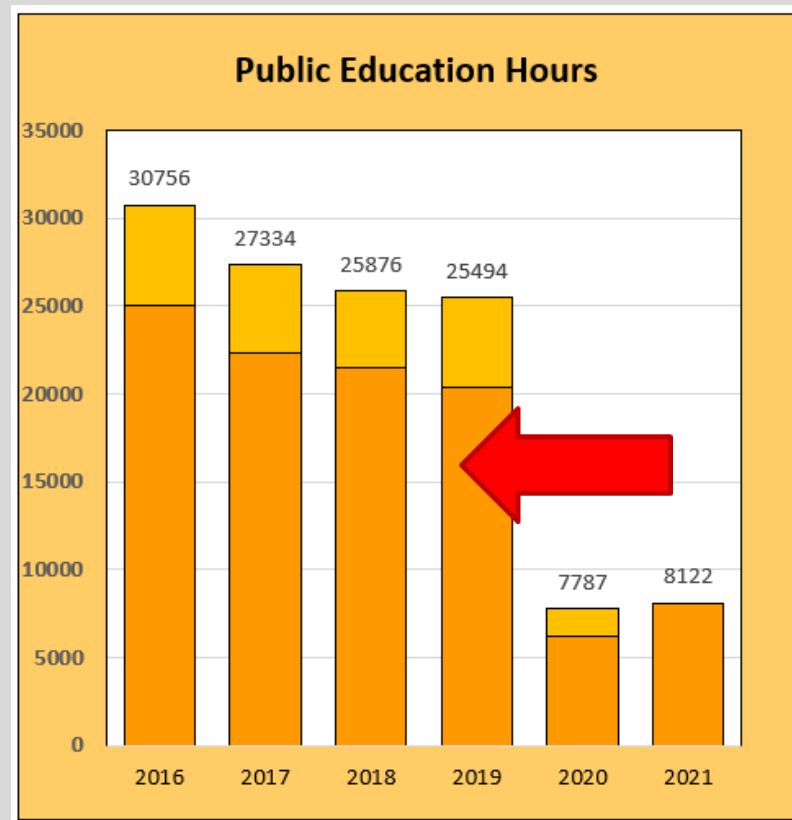

WHAT'S WITH THE TWO COLORS?

The lighter color in each bar shows the work performed January through December during every past full year

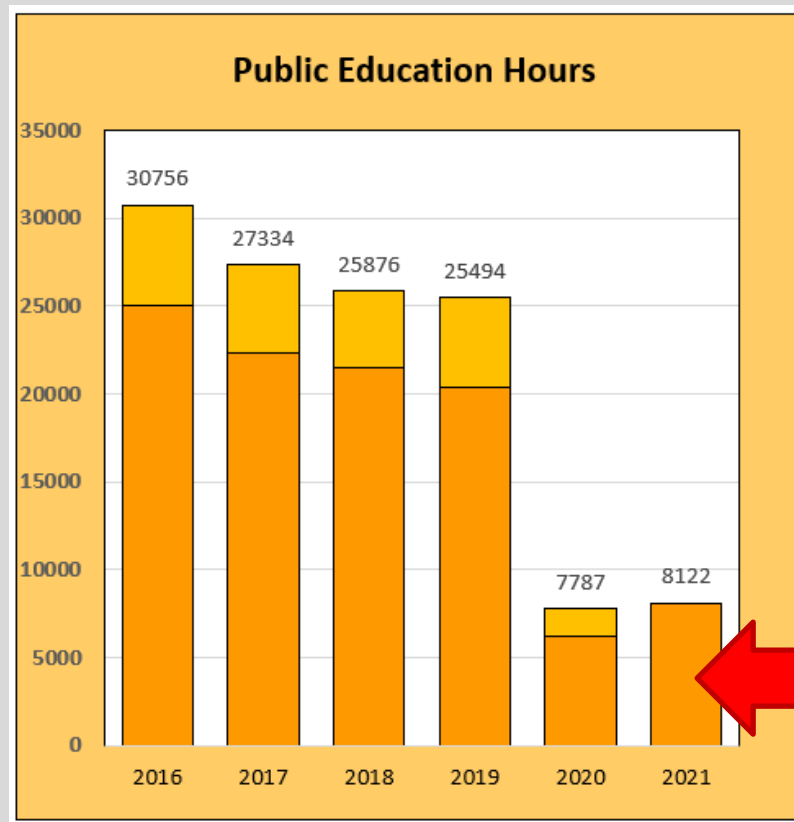

WHAT'S WITH THE TWO COLORS?

The darker color shows each year from January to September, since this is from a September report.

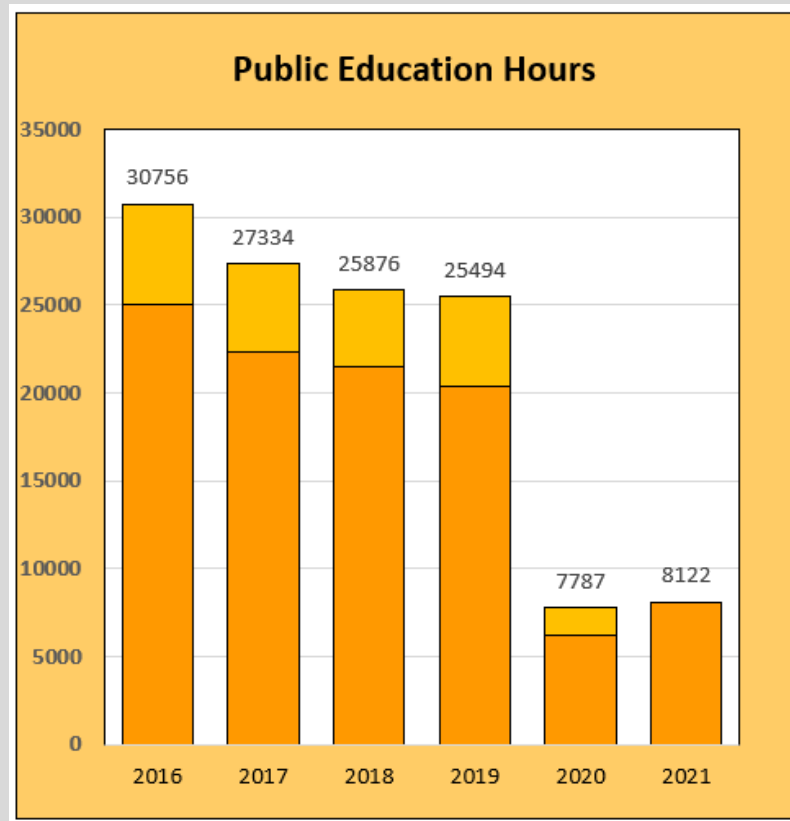

WHAT'S WITH THE TWO COLORS?

The current year is always dark, as it is always current year to date. There **is** no completed year, so there is no lighter color in that bar.

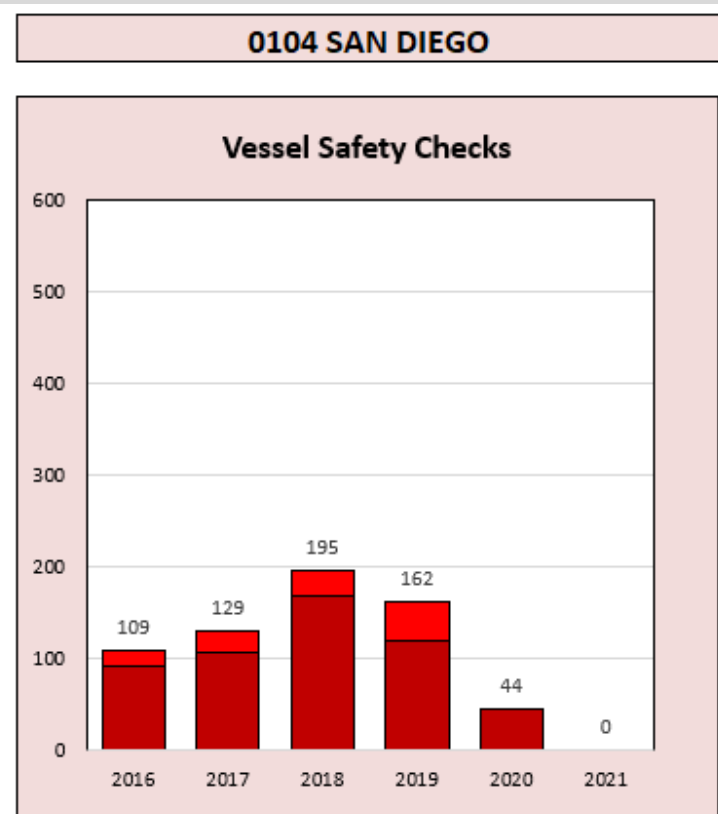

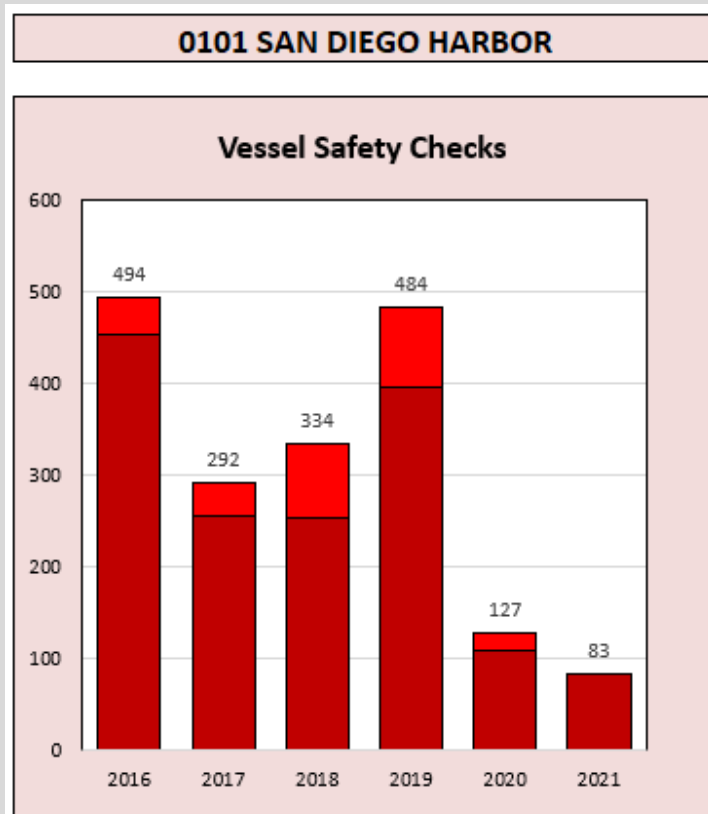

WHAT'S WITH THE TWO COLORS?

Together, the two colors show how the unit is doing compared to this time of year in each of the previous five years... plus the annual totals in each of the previous five years.

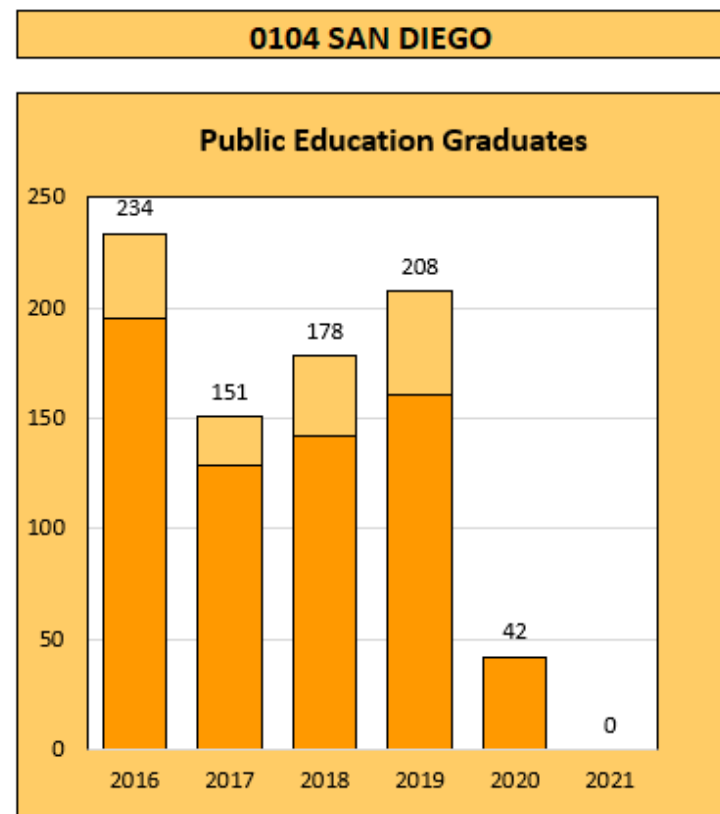

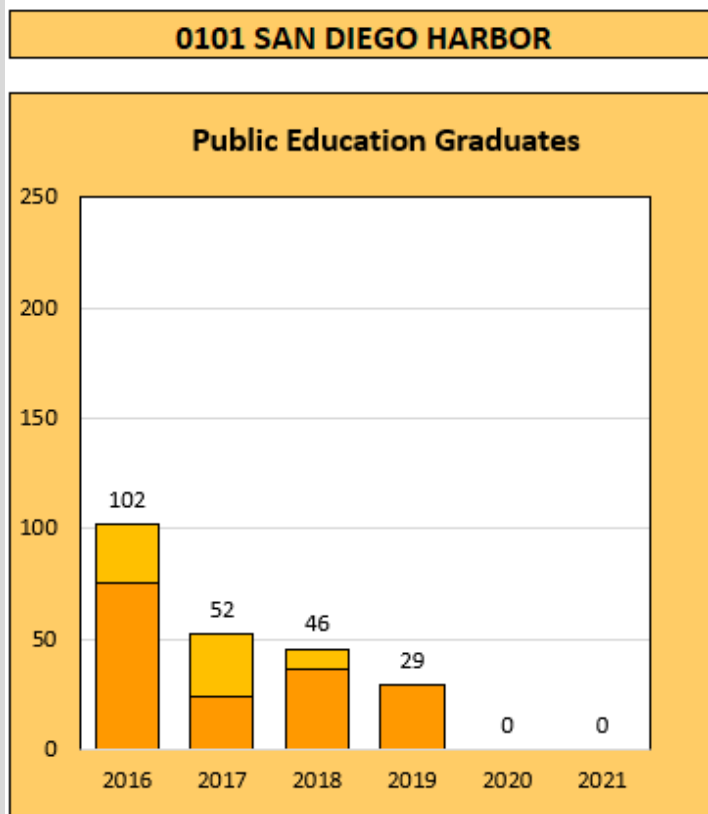

FLOTILLA CHARTING

LUCI charts those six key performance measures. You can examine units alone, or you can compare up to seven of them. Here we see the Vessel Exams for two flotillas.

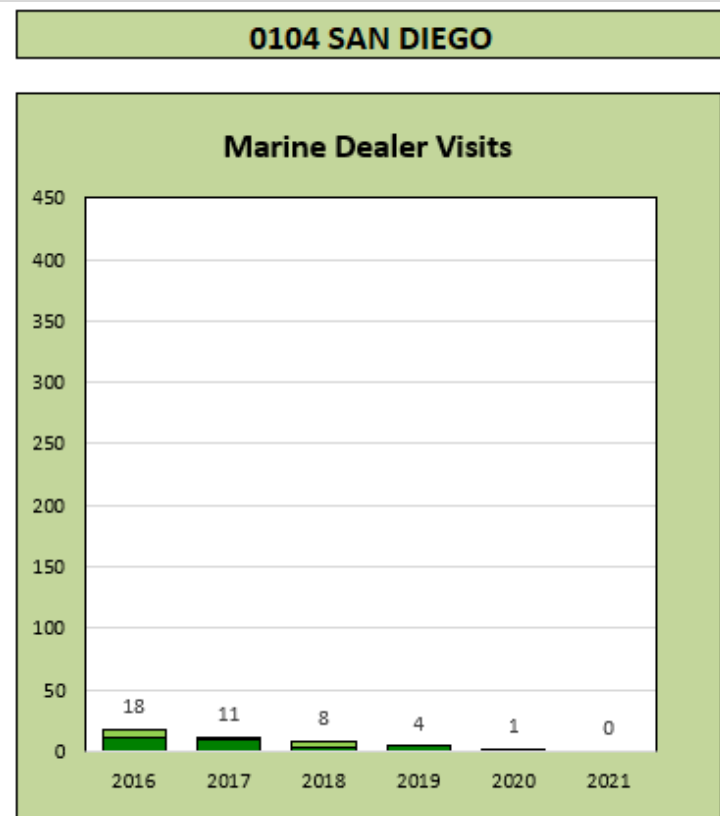

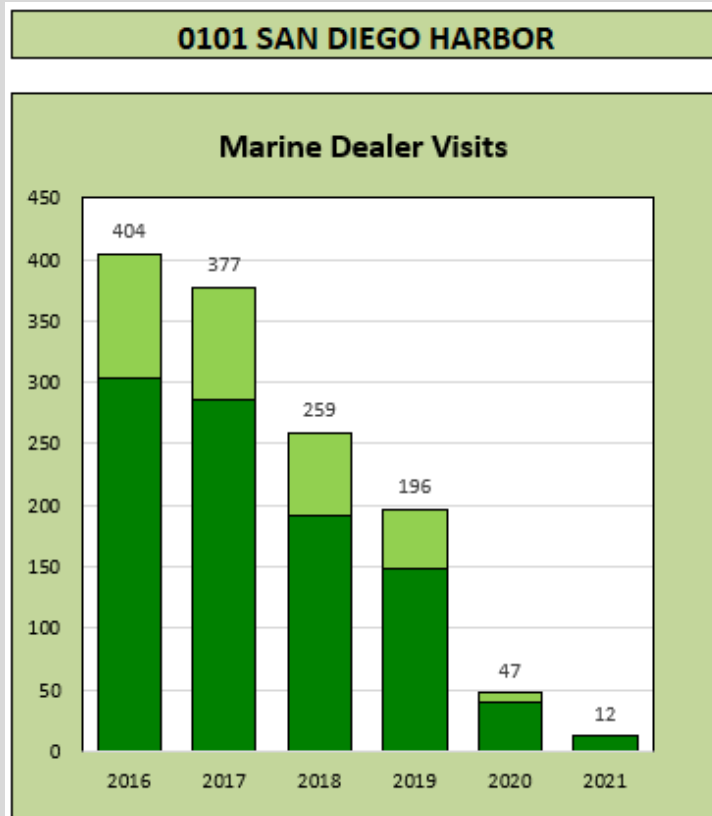

FLOTILLA CHARTING

Then, there are Public Education hours....

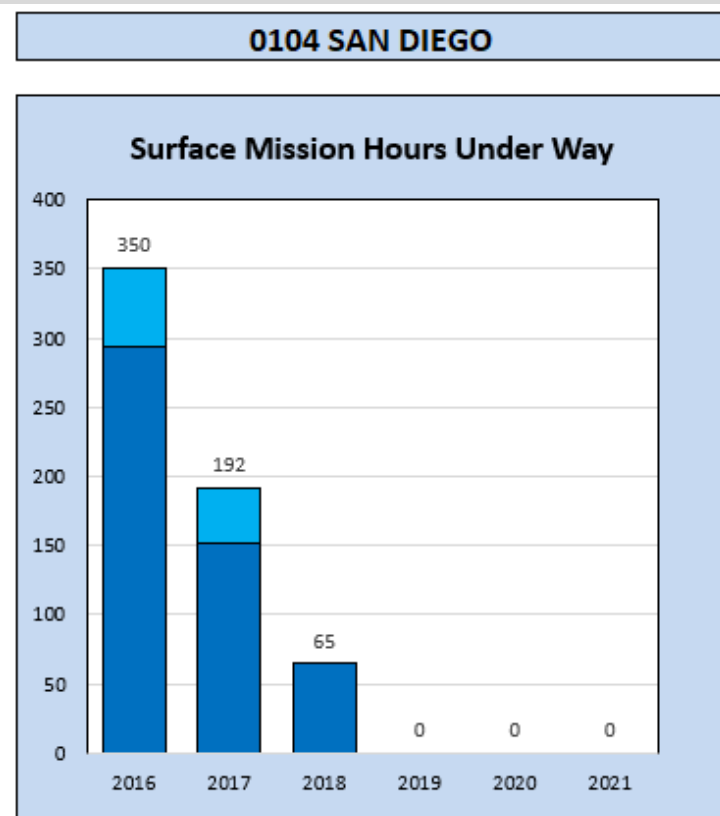

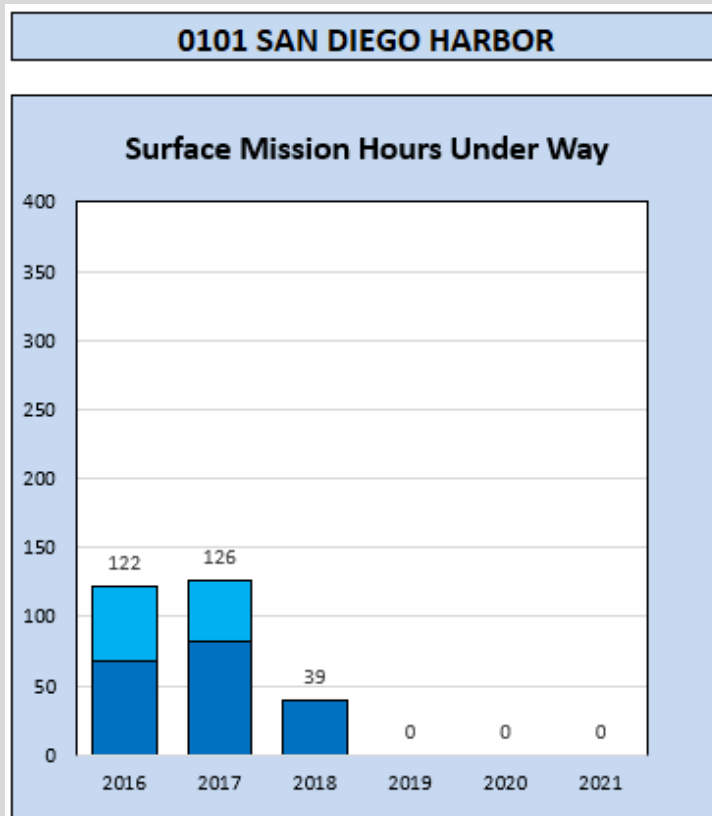

FLOTILLA CHARTING

...Marine Dealer Visits...

FLOTILLA CHARTING

FLOTILLA CHARTING

...Member Training hours...

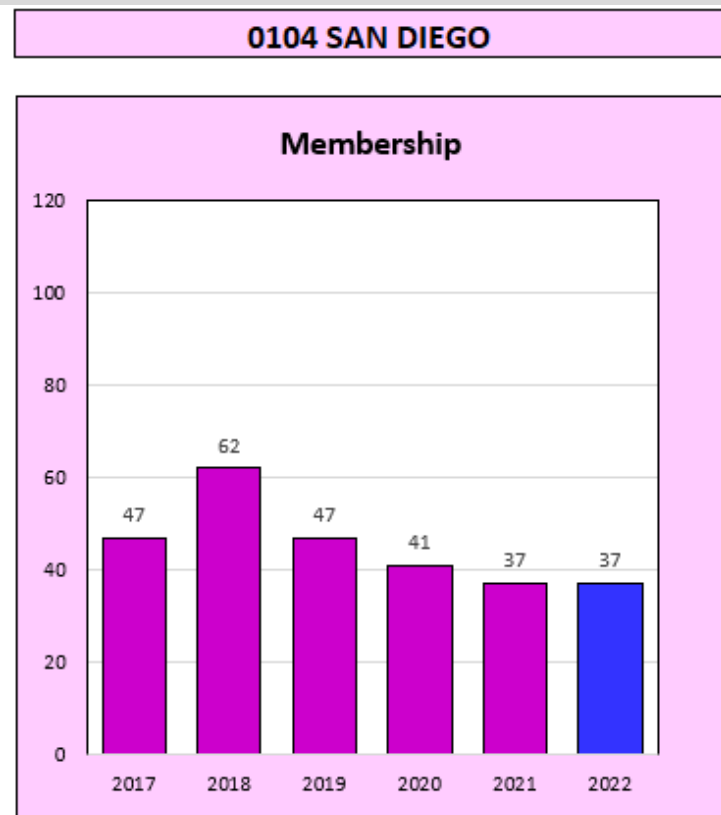

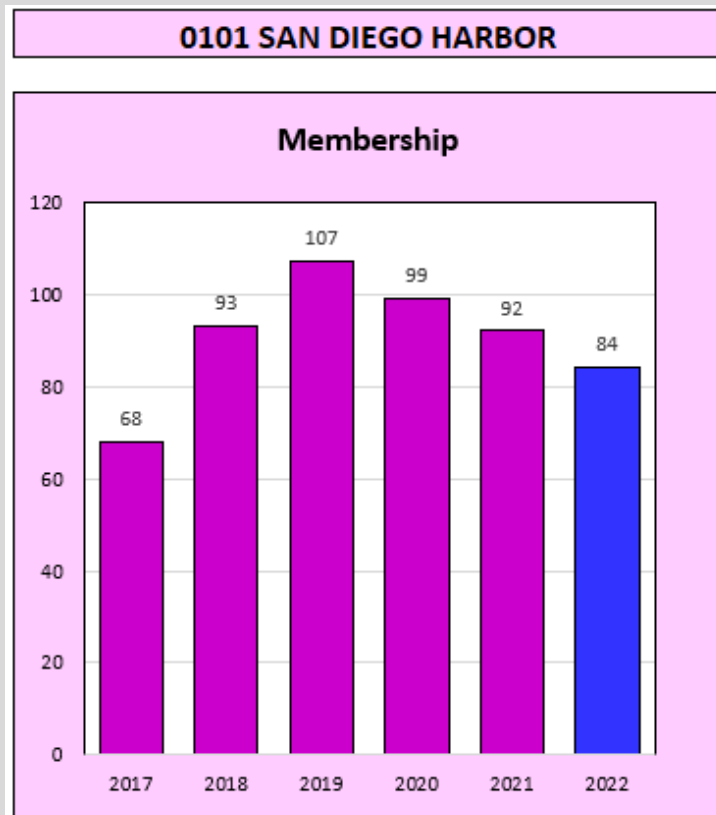

FLOTILLA CHARTING

...new members joined...

FLOTILLA CHARTING

...and finally, membership levels. In this category, the blue bar shows the current month's membership. The previous years show end-year totals.

TWO KINDS OF VIEWS

If you have queued up multiple flotillas, divisions, or districts to view side by side, you can either use the *same* vertical axis scale, or let each unit use its own vertical axis to fill up its graph. Both views are useful in their own way.

TWO KINDS OF VIEWS

Here's the drop-down box closer up. To turn a phrase, a simple "Y" or "N" will do!

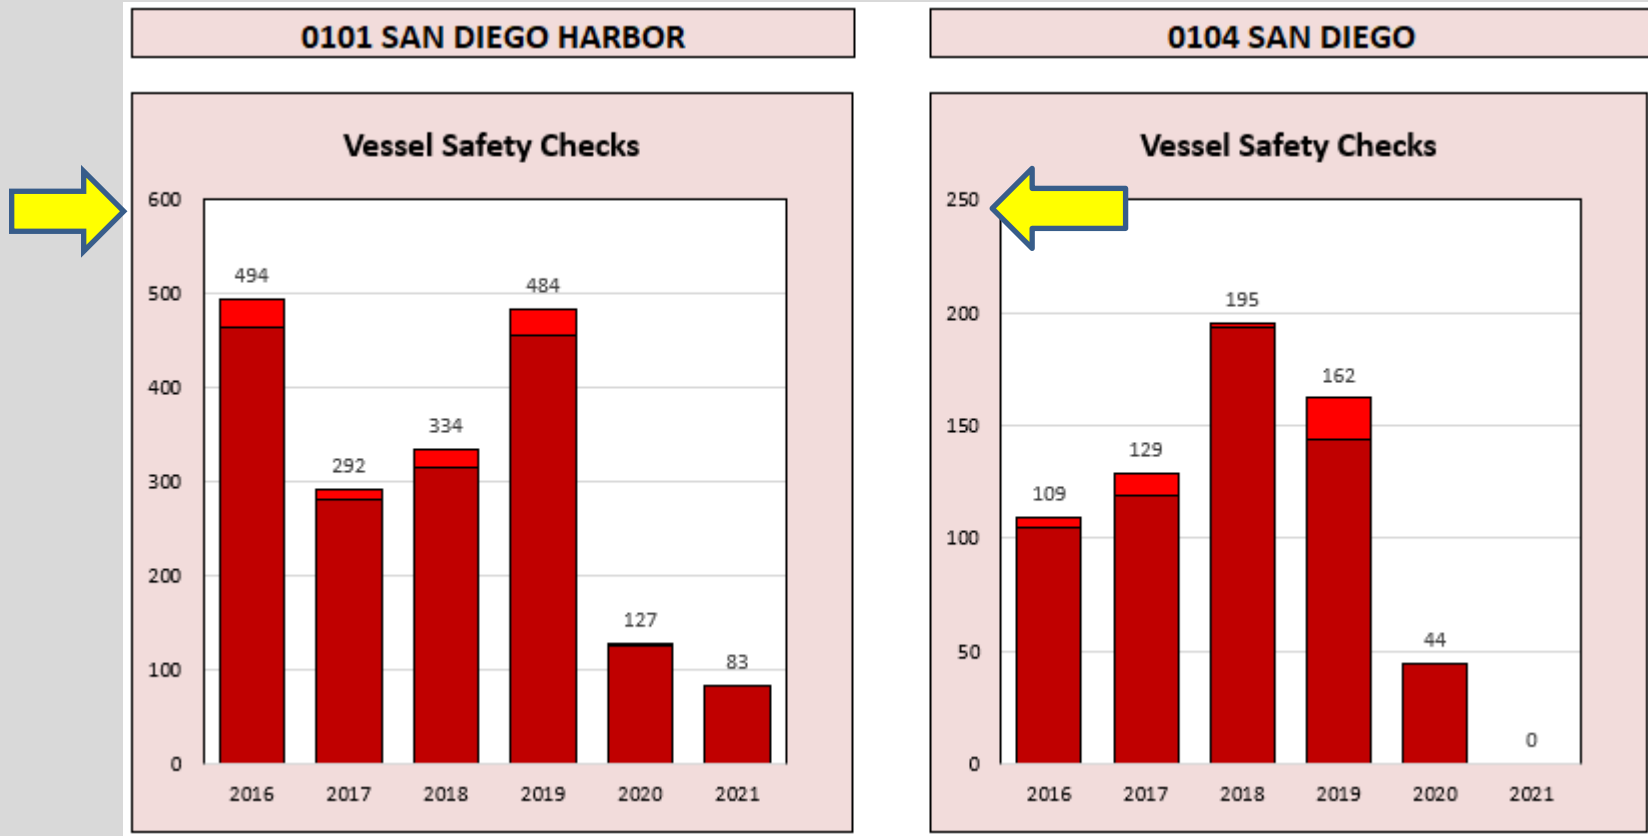

Same vertical scale for selected units?

DISTRICTS

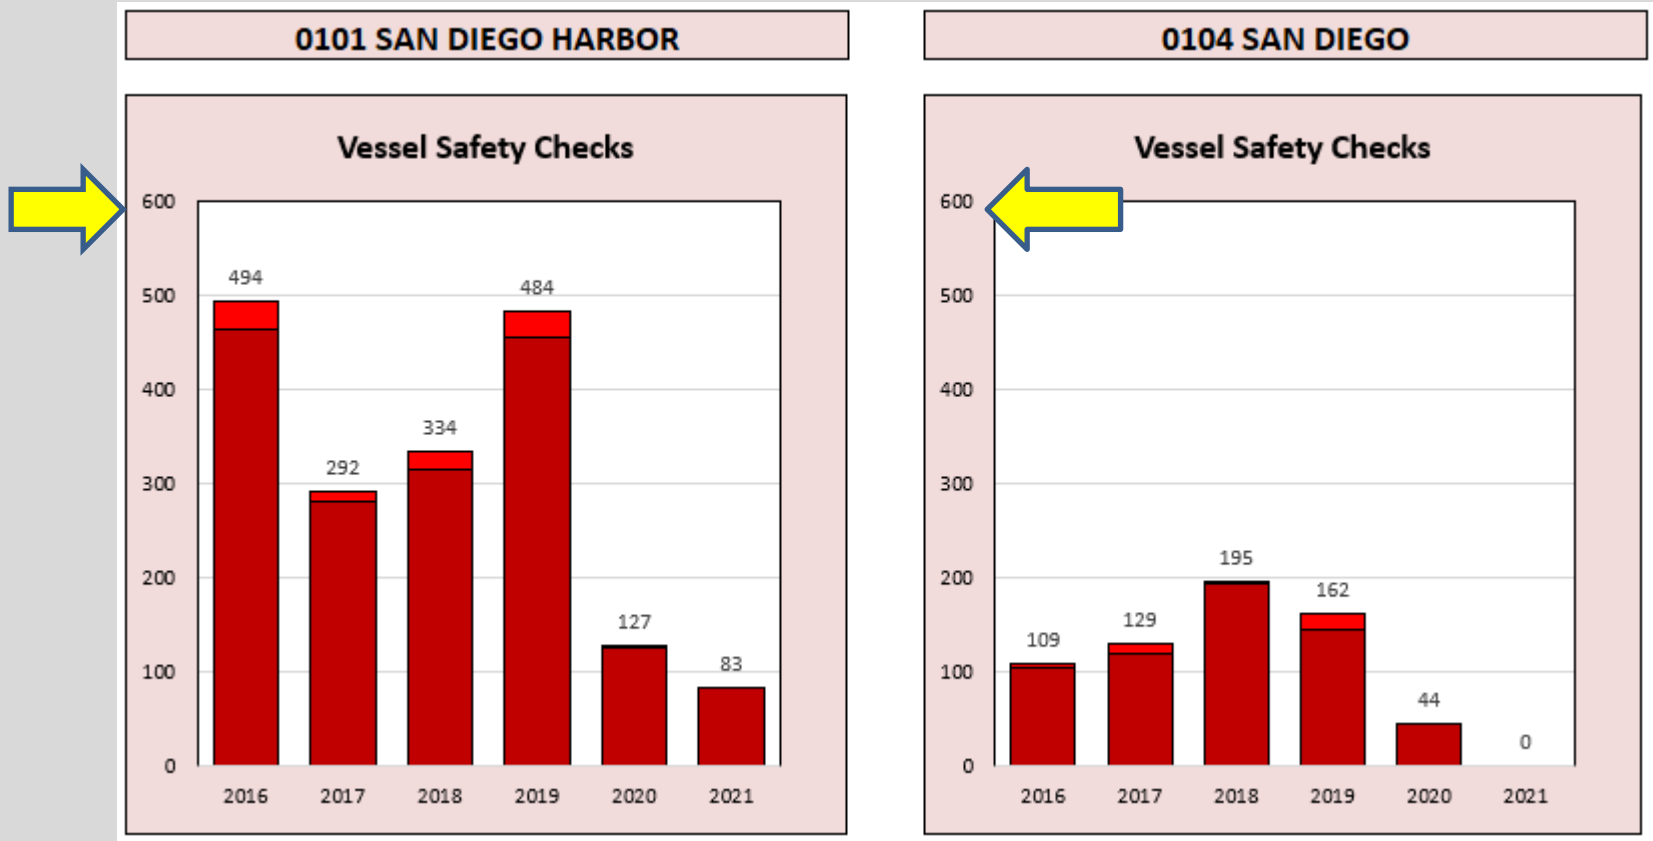

TWO KINDS OF VIEWS

In this example, we are **not** using the same vertical scale. This view is useful for monitoring year to year changes within San Diego Harbor, and within San Diego.

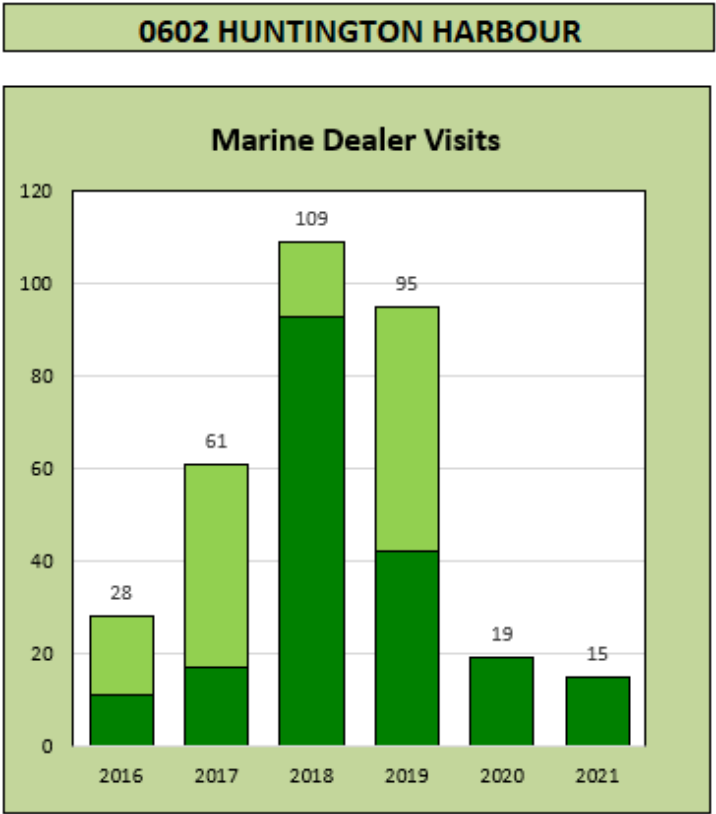

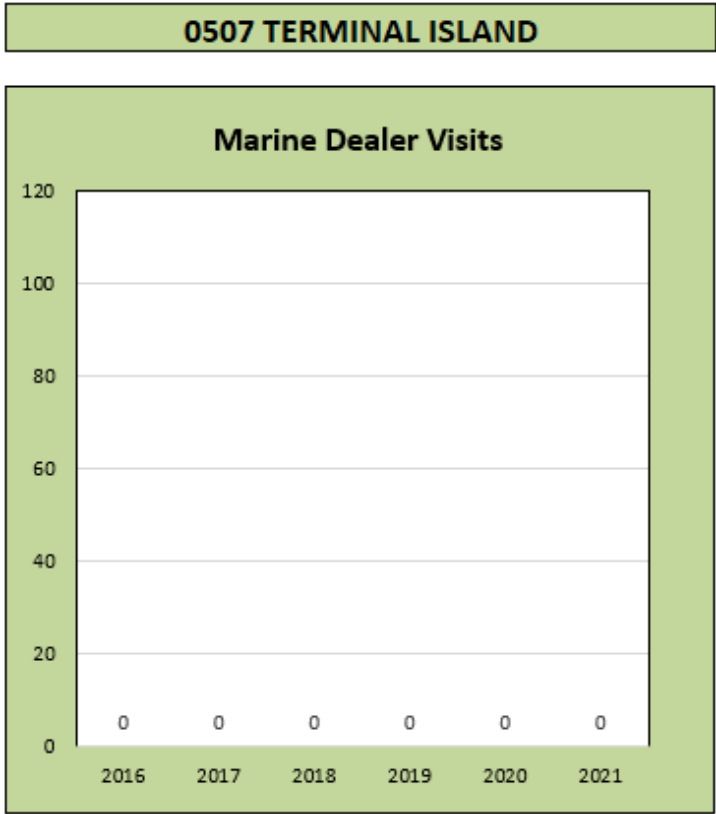

TWO KINDS OF VIEWS

Here we are using the *same* vertical scale. You can easily see that San Diego Harbor performs far more surface work than does Grassy Point. This view is useful for comparing overall performance *between* units.

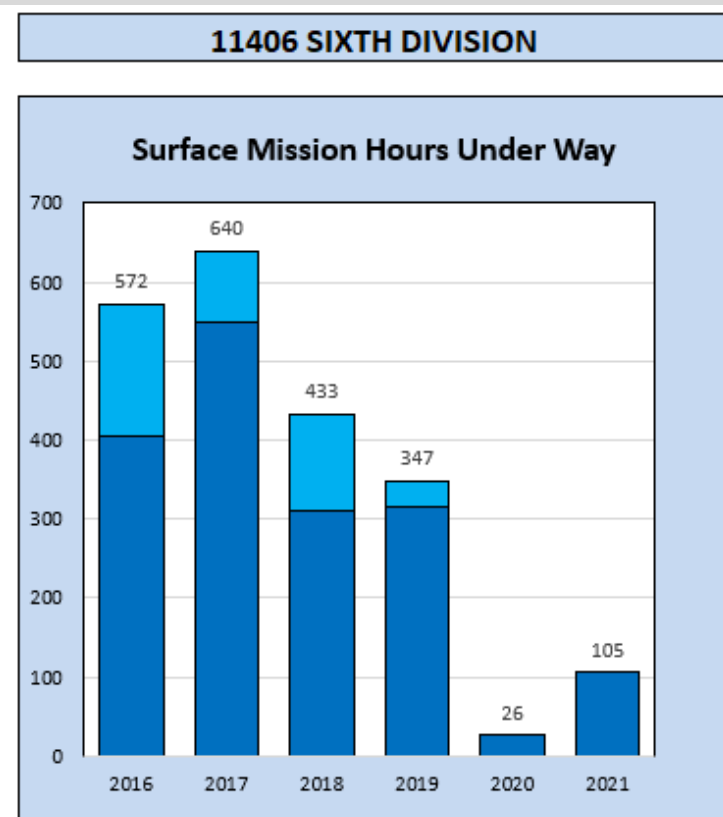

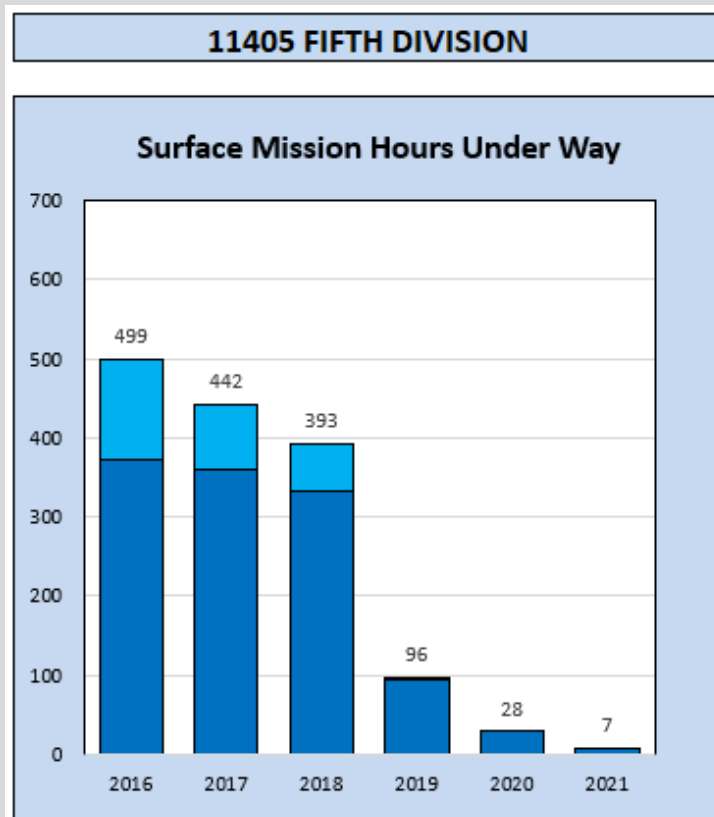

COMING UP EMPTY

Sometimes, a flotilla will have no activity for many years in a particular activity. For example, Terminal Island has performed no marine dealer visits in recent years.

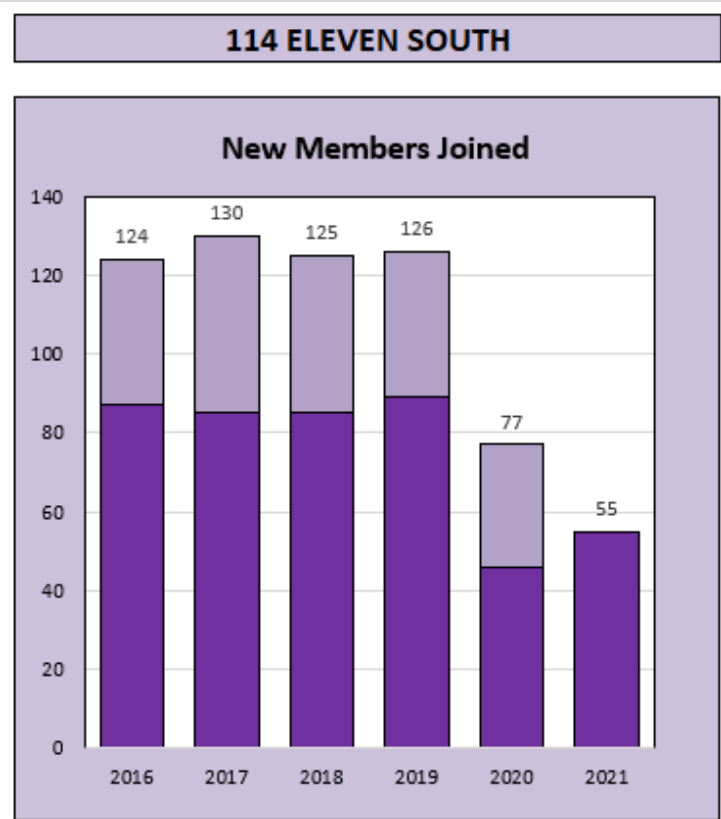

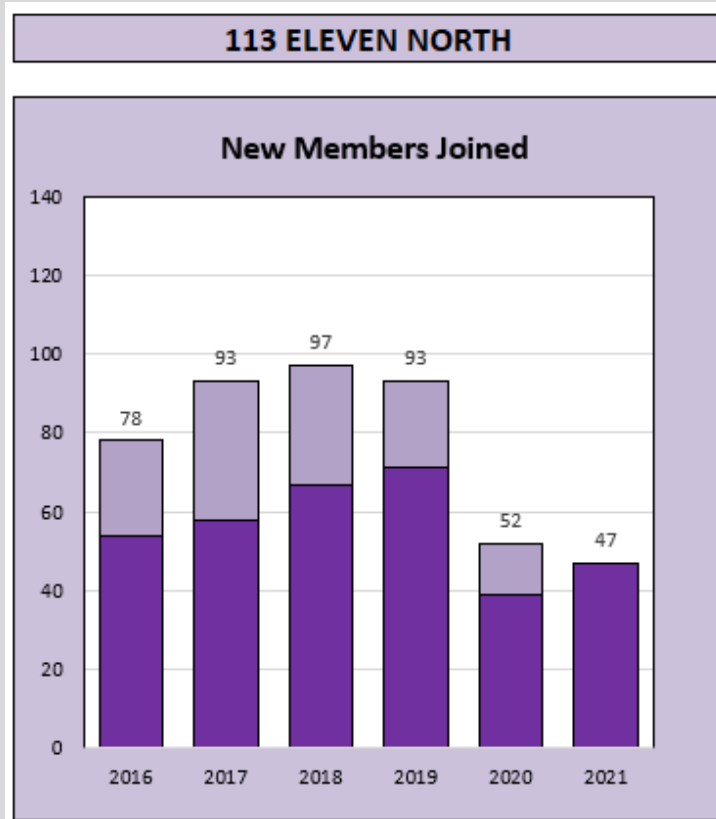

LUCI CAN ALSO HANDLE DIVISIONS

Here are the Fifth and Sixth with their crew hours underway.

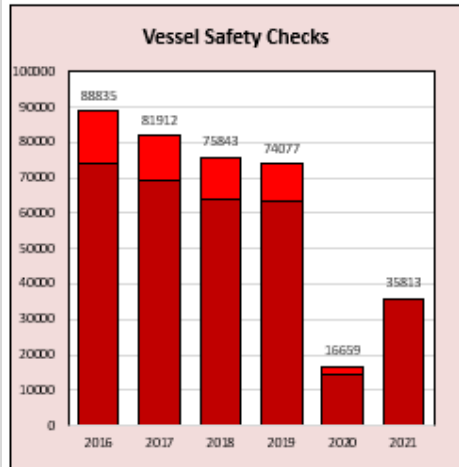

DISTRICTS, TOO!

Here are Eleven North and Eleven South showing New Members Joined.

GETTING SNIPPY

Most versions of Windows in current use come with an onboard snipping tool. With this utility, you can cut LUCI graphs for pasting into other presentations. Macs also come with a snipping utility.

Training Management Report

This is a recap of currency maintenance tasks in AUXDATA II for a wide range of response, prevention, RBS, and support personnel

This is **not** a definitive listing of those who are current and not current. It is the DIRAUXs who make determinations of currency.

Personnel who entered REYR status before 15 APR 2020 are not listed.

Members holding these certifications are also subject to the Auxiliary Core Training (AUXCT) requirements.

If the AUCXT box for a member is not checked "Y", more information can be found in the Core Training Report, available at the M Directorate website.

This report can be customized in a few minutes to make it only include personnel in your own district. See the <Customize> tab

FINAL THOUGHTS

Local knowledge of the “story behind the stats” is key. It is D11SR officers like you rather than National staffers who are in positions:

a) to know what factors may underlie a unit’s metrics, and,

b) to determine how best to amplify positive trends and remedy negative ones.
